The Information Visualization Lab and Cyberinfrastructure for Network Science Center at SLIS, Indiana University, Bloomington are seeking a highly motivated PHP Programmer

The successful applicant will work on the implementation of database-driven web sites such as http://iv.slis.indiana.edu, and http://scimaps.org. This is a great opportunity to gain experience in developing real-world, dynamic web applications in a team-centered work environment. We are looking for a long term programmer who can devote at least 20 hours and up to 40 hours per week to the projects.

Qualifications

- Undergraduate or graduate students in computer science, information science, or a related technical discipline required.
- 1-2 years of PHP programming required.
- Good understanding in OOP PHP development.
- Experiences in PHP-based framework (e.g. cakephp) will be a plus
- Knowledge or implementation of web services (e.g. REST) will be another plus
- Good knowledge of SQL, PostgreSQL, HTML, Javascript, and CSS.

Wage & Hours

$10-15/hour depending on qualifications; up to 40h/week.

How to Apply

Send a cover letter and resume to Bonnie Huang, huangb@indiana.edu.
